### Guided Walks

The islands of the Azores, with their mild climate (day time temperature ranging from 14-22 degrees), are the most wonderful islands for walking. Our suggested walks incorporate some of the best scenic walks on the island.

#### Entre Serra e Mar (Half Day)

This 9.5km (2.5 hours) circular walk starts and ends at the parish church of Santa Bárbara and passes typical houses and through rural landscapes. As you travel around the island you will notice the distinctive house chimneys, unique to Santa Maria and the varying number of colours used – the colours relate to the parish in which they are located. Following well used tracks, this walk offers excellent views of the bay of São Lourenço. **Grade 2 (Medium)**

#### Pico Alto - Anjos (Half Day)

This 14km (4 hours) linear walk starts on the Pico Alto forest road (587m), the highest point on Santa Maria, with views over the whole island – São Miguel Island can also be seen on a clear day. You will pass through the Barreiro da Faneca, a unique ecosystem made up of reddish clay soil known as the 'Red Desert of the Azores', and a forest of Japanese red cedar trees. Throughout the walk travellers are treated to views of Anjos, Ponta da Baleia, the Baía da Cré and the Lagoinhas Islet. **Grade 2 (Medium)**

### **Santo Espírito - Maia (Half Day)**

This 6.8km (3 hours) linear walk begins in the parish of Santo Espírito passing through Maia and ending at the whaling factory in Ponta do Castelo. The route runs through the village and passes by the splendid waterfall of the Aveiro in Ribeira Grande, the Gonçalo Velho Lighthouse and through terraced vineyards. **Grade 2 (Medium)**

### **North Shore (Half Day)**

This 6.7km (3 hours) linear walk starts in Feteiras de Baixo and ends at Baía dos Anjos. The trail goes through Baia do Raposo, Ribeira do Engenho, Barreiro da Faneca (a unique ecosystem in the Azores, made up of reddish clay lands, also known as the "Red Desert of the Azores") and Baía da Cré, places with great geological interest and classified as Geosites. **Grade 2 (Medium)**
