# Operational & Important Information

1. All cabin lights, fans, showers, and toilets onboard, work at 220W. Additionally, as the vessels are equipped with batteries that supply an output of 220W, there is no need for an external power supply for the electronics inside your cabin to operate.
2. The onboard Wi-Fi router works only when the vessels are connected to the equivalent port's power supply, or while the onboard generator is working.
3. The A/C on board is working only when the generator is on and running but unfortunately due to local port regulations, generators are prohibited from working after midnight.
4. The power supply from some shores(weak infrastructure) is not powerful enough to operate all our A/C units simultaneously.
5. The standard daily operating hours for all onboard A/C devices is up to 6 hours and does not include any type of overnight service. For the overnight A/C service, you will have to upgrade your cabin entry, at an additional cost of 140€ per person.
6. Onboard cleaning service includes daily basic floor cleaning, dusting, bin changing, bathroom cleaning and the sanitization of all shared areas. During the weekly cruise, our stewards change sheets and bath towels once.
7. Cabin keys are not provided for locking the cabins. If you have personal belongings that you wish to keep secure, you can entrust them to the Captain for safekeeping.
8. Regarding shower water, you can have a shower at any given time of the day.  
*Keep in mind that when the gulet is docked at any of the ports we visit, the engines are turned off, the water flow is reduced, and thus there is no warm/hot water after midnight. Also, all water tanks onboard are limited, meaning when multiple cabins shower at once, hot water is likely to run out faster. If this happens, and you do not have warm/hot water available, inform your operating Captain so that he can activate the water heater. After 15 to 20 minutes, you will have warm/hot water again.*

# FAQ

## **DO I NEED ANY TRAVEL INSURANCE?**

Adventure travel, like island hopping with a cruise vessel requires travel insurance and we strongly suggest purchasing one!

## **DO OUR GULETS, ACTUALLY SAIL?**

All gulets are motorized vessels, although they are equipped with sails. Operating solely under wind power is highly unpredictable and not practical for maintaining our weekly operational schedule. As our cruises run consecutively, Captains prefer to rely on the gulet's motor engine to ensure consistent and timely navigation throughout each cruising week

## **ARE THE ISLANDS WE VISIT EXPENSIVE?**

In general, the Greek islands can be quite affordable! You can choose between eating traditional Greek comfort food, like mousaka or souvlaki at 4-8€, or visiting a local restaurant/tavern for a proper Greek meal experience, at a price of circa 15-20€ per person.

## **CAN I PAY WITH CARD?**

Given the remote and traditional nature of our cruise route in this region of Greece, we cannot guarantee specific ATM locations. Additionally, as there are no card-related payment device on board, we recommend all our passengers to carry sufficient cash on them.

# FAQ

## WHEN AND WHERE DO I GET TO CHARGE MY ELECTRICAL DEVICES?

Our gulets have quite a number of electrical sockets, both in the inside and on the outside of the vessel. With this in mind, and as we provide extension cords and multi docking stations, you will be able to charge your devices when the generator is on, or while docked at port.

## DOES THE CREW SPEAK ENGLISH?

Our captains, fluent in English, are committed to making your cruise experience exceptional. In support of local communities, our gulets feature a diverse, multinational crew. While not all crew members may speak English, they are all attentive, and ready to assist you throughout your journey.

## WHAT HAPPENS IF YOU MISS YOUR DEPARTURE?

In the unfortunate event, that you lose your departure, you can “catch” the gulet at its next scheduled destination, via bus or ferry. (If available)

In any case, if something like that is meant to happen, try to inform us prior to your actual departure-time, by calling us at our Head office, at +30 211 215 25 95
