Guided Walks

The islands of the Azores, with their mild climate (day time temperature ranging from 14-22 degrees), are the most wonderful islands for walking. Our suggested walks incorporate some of the best scenic walks on the island.

Guided Walk - Rocha do Chambre - Full Day

Today's 8.8km walk takes you to the heart of the island along one of Terceira's most spectacular trails surrounded by nature. A varied landscape takes you to one of the highest points of the island where, weather dependent, it is possible to see the outer reaches of the island. You will discover how the island would have looked before the first settlers arrived.

On the way to the interior of the island, you will have the opportunity to observe the fields where wild cattle live, as well as how rich the interior of the island is, preserved and maintained by the locals over the centuries, until today. The trail is located in the centre of Terceira Island and along the way you will observe the endemic flora of the Azores, such as cryptomeria forests, large pastures and even observe some of the island's fauna. The attraction of this route is the "Rocha de Chambre", a vertical wall located at an altitude of 708 m where the view over the Azinhal Valley and the caldera of the Pico Alto Volcano stands out. After this climb, there is also time to admire the view from Pico das Caldeirinhas and Pico Vermelho.

The final part of the trail runs along a dry-stone wall, in an area dominated by Azorean Heather, an endemic species. After lunch, time to marvel at the Algar do Carvão Cave, a volcanic chimney that is undoubtedly the most famous volcanic cavity in the Azores. On the way back to Angra do Heroísmo, you will stop at Caldeira do Guilherme Moniz, a protected resource management area of the Terceira Natural Park, due to the presence of protected Macaronesian plant species.

- Difficulty: Grade 2 (Medium)
- Duration: 6 hours (Full Day)
- Frequency: Mondays and Thursdays at 08:30

Price is £48 per adult and £24 per child (6-11yrs) Full Day

Guided Walk – Mistérios Negros - Full Day

This 4.9km walk is along one of the most emblematic hiking trails of Terceira, a Laurissilva forest and a really fairy-tale landscape. The certified guides will provide information on the geology of the area and about the native cloud forest in low altitude.

On the way to the interior of the island you will have the opportunity to observe the fields where wild cattle live, as well as how rich the interior of the island is, preserved and maintained by the locals over the centuries until today. You will pass in the middle of a volcano, Pico da Bagacina, arriving at the place on the trail where you will be dazzled by the wonderful Lagoa do Negro. The trail runs through the area where one of the most recent eruptions on Terceira Island took place, surrounded by pastures, cryptomeria forest and other species that complement the luscious endemic vegetation. At the end of the trail, you will have the opportunity to observe the crater of the Pico Gaspar volcano, rich in endemism. Your picnic lunch will be at Lagoa das Patas with its natural surroundings where you can breathe the pure air of the forest and try to interact with the friendly ducks that live there. After lunch, you will head deeper into the earth to visit the Gruta de Natal, originally made from lava tubes, and with diverse geological structures such as the flow of different types of lava, stalactites, and side balconies. On the way back to Angra do Heroísmo, you will stop at Caldeira do Guilherme Moniz, a protected resource management area of the Terceira Natural Park, due to the presence of protected Macaronesian plant species.
