# Destination *Spotlight*

## Lesser-known destinations across Europe and Latin America.

"Lesser-known" is about more than escaping the crowds - it is discovering the heart of a place. It means strolling quiet streets where local life unfolds naturally, finding hidden coves and olive groves untouched by tourism and sharing moments that feel genuinely personal. These are destinations where culture, history and landscapes are revealed in their truest form, allowing you to connect with both people and place. By exploring lesser-visited islands, villages and regions, you enjoy a holiday that is not only unique but profoundly rewarding.

Our Greece programme exemplifies this approach, spanning 63 islands and the mainland - from celebrated favourites to hidden gems. You can explore the Peloponnese with its dramatic coastlines, ancient ruins and charming communities, or wander the Dodecanese islands, where Byzantine churches, quiet beaches and centuries of history await. Discover the remoter Cyclades - Kea, Amorgos, Folegandros - islands of authentic local life, winding streets and serene landscapes far from the crowds. Each destination offers its own character and our local representatives and hosts will help you experience it all genuinely.

Beyond Greece, our portfolio stretches across Europe and Latin America. You could consider Spain's Costa Brava, from the seafront villages of Llafranc and Calella de Palafrugell to Girona's historic streets and the Dalí Museum in Figueres. In the Nordics, Sweden's Arctic Retreat in Lapland offers forest cabins in a serene, snowy setting. In Latin America, the Andes and Galápagos of Ecuador beckon, alongside Costa Rica's volcanoes, wildlife and firefly-lit nights, or the Caribbean charm of Dominica, where rivers, coral reefs and welcoming locals await.

**A Sunvil holiday is more than a trip; it is your journey into the heart of a place, guided by people who know it best, filled with moments you will treasure long after you return home.**
