

SPORADES ISLANDS

# ALONISSOS

Tranquil and fertile, an island that treasures its unspoilt beauty and deserted beaches, Alonissos fulfils the escapist's dream.

Agios Dimitrios beach

Steni Vala

Nobody is in a hurry on Alonissos. The island seems to wish only to be enjoyed. In the villages, whitewashed houses and narrow-paved streets almost doze in the sun, whilst the rocky limestone coastline offers perfect shelter for the many secret pebbled beaches and deep caves carved out of the steep cliffs.

Exceptionally rich in sealife, the surrounding waters are part of a Marine Park, protecting the Mediterranean Monk Seal and many rare species of bird. One may even see the occasional dolphin.

Several small islands lie close off-shore, uninhabited except for a few shepherds and many goats, including Gioura, home to 'the cave of the Cyclops'.

Offering stunning views on all sides, walking trails run along the narrow island's backbone, winding through olive groves and almond trees.

# Quaint, mysterious, a step back in time and utterly beautiful

## ALONISSOS OLD TOWN

Of the three islands of the Sporades, Alonissos is the least developed. Until the 1965 earthquake, most of the island's population of 3,000 lived in The Old Town, dating back to Byzantine times, perched on the top of a hill and with dramatic panoramic views across the island and down to the fishing port of Patitiri. Following the earthquake, most of the population moved down to live in Patitiri and the Old Town above was abandoned and virtually fell into ruin.

The Old Town is now largely restored. It is certainly very picturesque and holds particular interest for artists, writers and walkers. The village now has a dozen tavernas, a pizzeria, several cafes and bars and two mini markets. Old Alonissos has one minimarket and a bakery and is linked by bus to Patitiri (up to 10 times a day in high season) and, if one prefers to walk, then it takes about 45 minutes via a goat track. The beach of Megalo Mourtia is about half an hour walk downhill but, be warned, this is a hilly location and not suitable for those with walking difficulties. The island's four taxis are always available for a ride to Patitiri and to the various beaches.

## KALAMAKIA

Kalamakia is a tiny port, half way up the east coast of Alonissos. The port is effectively home for four local families. The wives and daughters look after the four waterfront tavernas and the husbands and sons cast their nets daily from their caiques to ensure a rich selection of fresh fish. Nearest provisions are in Steni Vala, further south along the east coast, a drive of five minutes, where there is a mini market and waterfront tavernas.

## KATO CHORAFI

This is a heavily pine wooded area ideal for walkers and is just below the old town of Alonissos which is set on a hilltop. It is an ideal location, with dramatic views up to the Old Town and also over olive groves to the stretch of sea between Alonissos and Skopelos. Patitiri, the main port of the island is a five minute drive, the shops and tavernas of the old town can be reached on foot via a donkey path in 15 to 20 minutes and by car in 10 minutes. The nearest beach is that at Megalos Mourtias a ten minute drive away.

## LEFTO YALO BAY

The beautiful sheltered bay of Lefto Yalo is on the island's south east coast. The beach here is uncrowded and one of the most picturesque on the island. Two tavernas are set back from the beach of dazzling white pebbles and crystal clear waters. Patitiri, the island's port is a 15 minute drive south while the pretty fishing port of Steni Vala takes much the same time but due north. For walking enthusiasts there are many interesting trails leading from the bay up to the forested Issiomata (a flat piece of land in Greek) plateau and along the coast towards Steni Vala.

## MEGALI AMMOS

Megali Ammos beach is located 7 km northeast of Patitiri the capital of Alonissos but is in fact on the lesser known west coast of the island. The beach is small, pebbly and with crystal clear water. This is a wilder, unspoilt area, beloved of those wanting to be at one with nature.
