Our holidays

Sunvil is a family-run travel company, now in its second generation, and we like to think that our approach to holidays is refreshingly unique.

As passionate travellers ourselves, we have chosen to only offer holidays to destinations with which we have an affinity and where we have travelled extensively. We believe it is our responsibility to pick the best value accommodation and experiences on offer so that you can focus on the most important aspect of travel - that is to look forward to your adventure and to savour each moment.

Our promise is to take you away from the crowds and place you amongst the locals and amidst the most wondrous scenery. We want you to discover the real Finland and to fall in love with the country in much the same way we did.

We cater for individuals and handcraft each holiday, solely for you.

Helsinki city break: Our featured hotels are located in the heart of Helsinki, providing convenient access to the city's attractions and waterfront. Do not miss Amos Rex Art Gallery, the Oodi Central Library, Old Market Hall and Allas Sea Pool.

Helsinki and Stockholm: Why stop at one Nordic city when you can visit two cities in one holiday? Sweden's capital, Stockholm is connected to Helsinki by ferry and the two destinations both compliment and contrast with one another.

Northern lights holiday: The Aurora Borealis – a spectacular natural phenomenon featuring a myriad wave of colours dancing on the cosmic wind high in the sky – has fascinated man for many millennia. In an age where we know the scientific rationale for the Northern Lights, a sighting still delivers an emotional rush and a primaevael response that will be engraved in your memory for a lifetime. Watch nature's greatest show unfold in Lapland with Sunvil.

Fly-drive holiday through Norway, Sweden and Finland: The drama and imposing beauty of northern Scandinavia's landscape must be seen to be believed. Words can set the scene but it is only, when surrounded by the towering mountain peaks, fast flowing rivers and glistening lakes, that you can appreciate the power of Mother Nature. On our seven night fly-drive tour you will travel from the fjords of northern Norway, to the mountains of the Abisko National Park on the Sweden/Norway border, the wilderness plains of Swedish Lapland and the fells of northern Finland - keep your camera at the ready.
